WHO IS MRS. WINSLOW !-As this ques-

tion is frequently asked, we will simply say that she is body who, for upward of thirty years, has entiringly devoted her time and talents as a Female Physician and Nurse, principally among children. She has especially studied the constitution and wants of this numerous class; and, as a result of this offort, and praesical knowledge, obtained in a lifetime spent es nurse and physician, she has compounded a Soothing Sirep, for children teetking. It operates like magic-giving rest and health; and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming worldrenowned as a benefactor of her race: children certainly do RISS we and bless her; especially is this the case in this city. Vast quantities of the Soothing Sirup are DAILY sold and used hers. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been seved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No norman has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of birs. Winslow's Southing Sirop. Try it, mothers. Tax ir now.

The following is an extract from a letter written by the Rev C. Z. Weiser to the "German Reformed Mossengor" at Cham

There is a woman in the public eye, whose name had all along been associated, in our mind, with the "Yankee," "Quack," and "Humbug." But it is so no longer, and we desire to wrest her name from all such suspicious association in all other minds Whatever petions we may have of womanly delicacy and propri ty, we will all admit that woman alone is the Nurse the soon Nurse—the BEST Nurse. Whether we shall have Female Physicians or not, is a question which must be decided by time and principle, and not as a matter of taste. Pride, prejudice, caprice, and quetern, may as well behave thomselves, for if there is really a want, there will also be a supply—if there be a "calling," there will be a coming. Nature and human society are always selfapplying, and though Art and Fashion may hinder, they canno prevent.

Mrs. Winslow does not want to treat you GENTLEMEN! No does she want to prescribe a regimen for your wives; but modestly appears as a messenger of health and happiness to your infants in the cradle. Is there anything improper in that? A Nurse of "ten years" experience can boldly say what is or is not good for a babe-and ought to be listened to. God speed her, on her humble but happy mission. She is the most successfa physician and most effectual benefactress our little one ever enjoyed-her doting parents not excepted. Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingele of the nursery. Of this we are sure, that we will teach our "Sust" to my, "A BLESSING ON MRS. WINSLOW"-for helping her to survive and escape the griping, colleking, and teething siege. We confirm every word set forth in the PROSPECTUS. It performs precisely what it professes to perform, every part of it -nothing less. Away with your "Cordial," "Paregoric, "Drops," "Londanum," and every other "Narcotic," by which the babe is drugged into stupidity, and rendered dull and idiotic

We have never seen Mrs. Winslow-know her only through the preparation of her "Southing Strup for Children Toething." If we had the power, we would make her, as she is, a physical sevior to the Infant Race.

To every mother who has children suffering from any of the complaints incident to the period of teething, we say do not let your own prejudices, or the prejudices of others, stand in the way of the relief that will be sure—yes, absolutely sure—to follow the use of MRS. WINSLOW'S SOOTHING SIRUP.

Dr. Bribons—Deer Sir: I am a Methodist minister, and have to travel much among the country towns, where I see many people in their homes. Knowing the Gracienberg Medicines so well I always recommend them. The Pills and Uterine Catholicon work absolute miracles. I have seen many a suffering and broken down woman, to whem I have advised the Catholicon, and on seeing her again, she has told me that she has been entirely cured, and that she would advise a woman who was afflicted with any fermite weekness, or irregularity, or sterined difficulty, to go short of bread until six deliars were saved to send for the Catholicon. 	RECOND	BOARD.
1 000 Cate 3 State 50 1965 99 50 Gal & Chic R R 60		

At the morning board there was a moderate degree of activity in Stocks, but the tone of the dispatches in the morning papers from the South were not encouraging, and the improved feeling of Saturday afternoon was not sustained. The general features of the market was much the same as for the week past; moderate amount of purchases for cash by the public who are allured by low prices; the taking in of short stock, an unwillingness to operate on time to any exent and gradually declining quotations. Among the heaviest Securities were Government Stocks and Rail-road Bonds. Government 6s 1867 sold at 95, a decline of 81 per cent. The 5s of 1874 sold at 89, and there was very little demand at any price. These sales were made by timid parties who fear the Treasury will be entirely bankrupt before January. We presume, however, that Congress will before that time authorize some financial expedient which will enable the Secretary to pay the interest. State Stocks were also heavy but without important change. Central opens at 701 against 71, on Saturday; closed at about the same figure. Eric opened at 244 and closed at 24. The transfer books were opened to-day, and there was a demand for stock largely in excess of the supply. If a large holder had not lent stock freely, the deliveries could not have been made by several thou-

sand shares. Pacific Mail declined 34 \$\psi\$ cent. The Western shares were generally heavy, but without important change. At the Second Board there was an inactive market, excepting for Central; and, with some irregularity, quotations were well sustained. Central advanced rapidly to 72, but afterward fell back to 711. The Western shares were firm. Toward the close a better feeling sprung up, in consequence of the hopeful tone of the dispatches from Washington in the evening papers. Central became very buoyant, and after the regular session advanced to 721 bid. The other active fancies participated in the upward feeling, although to Steamship Company intend dispatching their fail-powered Clyds built iron Steamship Company intend dispatching their fail-powered Clyds built iron Steamship as follows:

the banks are doing all they think prudent to facilitate the payments of their dealers. The receipts of our merchants are much curtailed by the high rates of exchange ruling in various parts of the country, and this throws them upon the city banks for larger assistance. From the South the payments are very unsatisfactory. The open money market is without change from last week. On demand, money is moderately abundant at € a7 P cent. Paper continues to go very slowly at 15 218 \$ cent for the best double name. Dry Goods signatures appear to be suffering under greater distrust than any other description, and we hear of none passing below 18 F cent. Treasury Notes are very much depressed, and have sold as high as $6 \ P$ cent discount for those due next month. Importers are buying them for the payment of duties at $2|\pi 3 \ P$ cent discount. The domestic exchanges do not improve, except on Philadelphia, which is down to 2 # 21 P cent. On Baltimore the rate is worse, 31 24 P cent. At Chicago the rate is 8 2 10 P cent, with but little offering merchants can scarcely expect to receive remittances, while exchange stands at these figures. At St. Louis two of the banks are drawing at 1 P cent to their customers. In the open market the rate is 2] & cent. At Milwankee 5 & cent is the nominal price, but no one is willing to sell any amount at that rate. The payment of the Illinois State interest is advertised at the American Exchange Bank on the 1st Monday of January, and for thirty days thereafter. Holders of "Illinois and Michigan Canal Bonds," where coupons are exhausted, are required to present the bonds. M. Philip Rufferty has been appointed Receiver of the Cataract City Bank, at Paterson, New-Jersey. The circulation of the bank is \$80,000, for which there is full security. Messrs. Platner & Smith, the paper-makers of Lee, Massachusetts, have agreed to pay their creditors fifty cents on the dollar, payable in three years, without interest. Mr. Smith will go on with the business.

The movement of the Banks since Nov. 24, 1855,

According to a letter from the traveling agent of a

Market street firm in Philadelphia, written at Mem phis, the South fails to pays its debts from three causes 1. The failure of the crops; 2. The depreciation of paper currency; 3. The secession excitement. In the Memphis market, cetton is a drug. The accumulation of the staple at that point alone is estimated to be of the value of three millions of dollars. Not a bale of it can be moved. The banks refuse to expand, and, as a consequence, cotton sticks. The Philadelphia Ledger says:

"There is still an urgent demand on the street for money, and rates rule very high. Only the best bills are considered, and these at rates ruling from 1 2 4 vent a month. Some few transactions in "call" loans 1829 vent."

BROOKLYN MAGDALEN SOCIETT .- The annual ser-

mon before this Society, which was postponed several weeks ago on account of the preacher's illness, was delivered Sunday night in the Pilgrims Church, (Rev. Dr. Starr's) corner of Remsen and Henry sts., by the Rev. Dr. Wm. Hoge. The attendance was quite full. Dr. Hoge read the 9th chapter of Luke, and selected Dr. Hoge read the 9th chapter of Luke, and selected therefrom, as his text, the words "Seest thou this woman," from which he preached an interesting sermon. He portrayed the life of shame in all its hideousners, and brought before his hearers in bold relief, the woman of the street, poor, friendless, without love, houseless, dormant, drowning despair in opium, inspiring giddiness by intoxication; these were her lot, and thus she sank dolly and annually deeper in misery and darkness, until her soul was driven, shricking and shivering to hell, and her body was taken to the paupers grave. It was to save such as these that this Sorlety labored. A collection was taken up in behalf of the Magdalen Societ
